

**AUSTRALIAN CENTRE FOR
GEOMECHANICS**

**ACG Project Report
No. ACG:1010-02**

**METALLURGICAL MINE TAILINGS
REHABILITATION**

BY

**D.A. JASPER (CENTRE FOR LAND REHABILITATION,
UNIVERSITY OF WESTERN AUSTRALIA)
Z. YIBIN, W. YUNMING AND Y.W. SHEN
(MAANSHAN INSTITUTE OF MINING RESEARCH,
MAANSHAN / CHINA)**

**FUNDED BY THE WESTERN AUSTRALIA / CHINA
ECONOMIC AND TECHNICAL RESEARCH FUND
(GOVERNMENT OF WESTERN AUSTRALIA)**

OCTOBER 2002

ACG:1010-02

**Contact: Australian Centre for Geomechanics, P O Box 3296 - Broadway, Nedlands WA 6009
Phone: 08 - 9380 3300, Fax: 08 - 9380 1130, Email: acg@acg.uwa.edu.au**

TABLE OF CONTENTS

1.	INTRODUCTION	Page 4
2.	SUMMARY OF RESEARCH OUTCOMES	Page 4
2.1	Metallurgical Mine Tailings Rehabilitation Research	Page 4
2.1.1	Revegetation	Page 4
2.1.2	Soil reconstruction	Page 4
2.1.3	Potential contaminants in soil and vegetation	Page 4
2.1.4	Dust suppression using chemical stabilizing agents	Page 5
2.2	Gold Residue Rehabilitation at the Boddington Gold Mine	Page 5
2.2.1	Machinery access and site trafficability	Page 5
2.2.2	Vegetation establishments and growth	Page 5
2.2.3	Soil development	Page 5
2.2.4	Water quality and modeling water balances	Page 6
2.2.5	Postgraduate and undergraduate research, and communication of outcomes	Page 6
3.	TRAINING	Page 6
3.1	Research Training Program	Page 6
3.2	Short Courses Attended	Page 6
4.	INSTITUTIONAL VISITS	Page 7
4.1	Visit by Assoc. Prof. David Jasper to MIMR	Page 7
4.2	Visit by Personnel from MIMR and GuShan Iron Mine to W.A.	Page 7

ATTACHMENTS

- Attachment 1A Metallurgical Mine Tailings Rehabilitation Research Report, Maanshan Institute of Mining Research (MIMR)
- Attachment 1B Gold Residue Rehabilitation Project Technical Report, April 2001
- Attachment 2A Gold Residue Rehabilitation Report Project, Submission for the 2002 Golden Gecko Award; P. McNeil, March 2002
- Attachment 3A Revegetation of Gold Processing Residue Storage Areas in the Eastern Jarrah Forest of South-West Western Australia. Conference Paper presented at “Soils 2000”, Muresk Institute of Agriculture, Northam, Western Australia, 11-13 July 2000
- Attachment 3B Water Flow Patterns and Salt Distribution in a Gold Processing Residue: Preliminary Results. C. Hinz, M. Braimbridge, F. Boyle, D. Jasper. Conference paper presented at Remade Lands 2000, International Conference on the Remediation and Management of Degraded Lands, Fremantle, Western Australia, 30 November – 2 December 2000
- Attachment 3C Revegetation of Gold Processing Residue Storage Areas in the Eastern Jarrah Forest of South-West Western Australia. Conference paper presented at Remade Lands 2000, International Conference on the Remediation and Management of Degraded Lands, Fremantle, Western Australia, 30 November – 2 December 2000
- Attachment 4 Training Certificate, Dr Shen Yuan Wei
- Attachment 5 Research Report “Defining Soil Properties for Revegetation of Iron Ore Tailings in the Pilbara Region of Western Australia, Y.W. Shen and D.A. Jasper
