

T A B L E O F C O N T E N T S

Keynote Lectures	1
<i>RaSiM Comes of Age—A Review of the Contribution to the Understanding and Control of Mine Rockbursts</i>	
W.D. Ortlepp	3
<i>The Practice of Seismic Management in Mines—How to Love your Seismic Monitoring System</i>	
P.A. Mikula	21
<i>New Dimensions in Seismic Data Interpretation with 3-D Virtual Reality Visualisation for Burst-Prone Mines</i>	
P.K. Kaiser, P. Vasak, F.T. Suorineni, D. Thibodeau	33
<i>RFPA—A Tool for Analysis of Unstable Failure and Associated Seismicity in Brittle Rocks</i>	
C.A. Tang	47
<i>Rockburst Prediction Using Numerical Modelling—Realistic Limits for Failure Prediction Accuracy</i>	
T.D. Wiles	57
1. High Stress Mining	65
<i>Threadbar Bolts in a Seismically Active, High Stress, High Yield Environment—Otter-Juan Mine, Kambalda</i>	
M.H. Turner, T. Green	67
<i>The Evolution of Seismicity and Subsequent Learning Experiences in Deep Lead, Mount Isa Mines, Xstrata Zinc</i>	
I.G.T. Thin, N.S. Edkins, L.J. Jeschke, A.P. Winchester	75
<i>In Situ Testing of Ground Support Performance Under Strong Dynamic Loading</i>	
D.P. Heal, M.R. Hudyma, C.C. Langille, Y. Potvin, R.J. Butcher, R. Ball, B. Hartmann	85
2. Source Models and Mechanisms / Mine Seismology (1)	95
<i>Persistence of Seismic Rockmass Response to Mining</i>	
A.J. Mendecki	97
<i>Observations Concerning Diverse Mechanisms for Mining-Induced Earthquakes</i>	
A. McGarr	107
<i>Implosional Focal Mechanisms in a Hard-Rock Mine</i>	
S. Talebi, M. Côté	113
<i>Source Characteristics of Mining-Induced Seismicity from Moment-Tensor Analysis and Spatio-Temporal Relationships</i>	
E. Richardson, A.A. Nyblade, W.R. Walter, A.J. Rodgers	123
3. Seismicity in Soft Rock Mines: Coal and Potash (1)	129
<i>Source Parameter Estimation in a Coal Environment</i>	
A.R. King	131
<i>Microseismic Monitoring to Study Strata Behaviour and to Predict Rockfalls on a Longwall Face at Rajendra Colliery in India</i>	
C. Sivakumar, C. Srinivasan, R.N. Gupta	135
<i>A Trial of Microseismic Monitoring of Coal Bumps at an Underground Coal Mine in China</i>	
X. Luo, F. Jiang, S. Yang	145
4. Seismic Hazard and Risk (1)	149
<i>Probabilistic Analysis of Seismic Hazard Posed by Mining Induced Events</i>	
S. Lasocki	151
<i>Seismic Hazard Quantification</i>	
R. Ebrahim-Trollope, Y. Jooste	157
<i>Evaluation of the Rockburst Potential in Platinum Mines in Shallow to Intermediate Depths when Mining Beneath Overlying Remnants</i>	
N. Singh, K. Naidoo, A.M. Milev, H. Urcan	165
<i>Analysis of Peak Particle Velocity and Acceleration Distributions at Darlot Gold Mine, Australia</i>	
C-I. Trifu, V. Shumila, D. Chen	175

5. Seismic Hazard and Risk (2)	181
<i>Characterisation of Hazards and Rockmass Response During Remnant Mining in South African Gold Mines</i>	
E.J. Sellers, M.O. Kataka, A.M. Milev, N. Singh, S.M. Spottiswoode, R. Ebrahim-Trollope	183
<i>Calibrating a Semi-Quantitative Seismic Risk Model Using Rockburst Case Studies from Underground Metalliferous Mines</i>	
M.L. Owen	191
<i>Application of Seismic Hazard Assessment to Narrow-Vein Deposits</i>	
M. Côté, D.M. Priscu	205
<i>Mine Layout Design and Medium-Term Prediction of Seismicity</i>	
S.M. Spottiswoode	211
<i>Experiences from Using a System for the Evaluation of Dynamic Phenomena Hazards</i>	
Z. Isakow, J. Juzwa	219
6. Source Models and Mechanisms / Mine Seismology (2)	227
<i>Fundamental Study of Micro-Fracturing on the Slip Surface of Mine-Induced Dynamic Brittle Shear Zones</i>	
W.D. Ortlepp, R. Armstrong, J.A. Ryder, D. O'Connor	229
<i>Underground Microseismic Monitoring of Pillar Systems to Evaluate Mechanism of Failure</i>	
A.M. Milev, M.W. Hildyard, L.M. Linzer, S.M. Spottiswoode	239
<i>Interpreting Complex Waveforms from Some Mining Related Seismic Events</i>	
K.L. Riemer	247
<i>Source Mechanism—Dipole versus Single Force Application to Mining Induced Seismic Events in Deep Level Gold Mines in South Africa</i> J. Šílený, A.M. Milev	
	259
7. Case Studies (1)	267
<i>Understanding Mine Seismicity—A Way to Reduce Mining Hazards at Barrick's Darlot Gold Mine</i>	
D. Chen, L. Gray, M.R. Hudyma	269
<i>Management of Rockburst Risk at Falconbridge's Craig and Onaping Mines</i>	
B.P Simser	275
<i>Seismicity Induced by Cave Mining, Palabora Experience</i>	
S.N. Glazer, N. Hepworth	281
<i>The April 22nd, 2003 Rockburst in the Sub 6 Sector, El Teniente Mine—A Case History</i>	
R. Dunlop, A. Belmonte	291
8. Laboratory Testing and Experiments (1)	299
<i>Data-Driven Simulation of the Rockmass Response to Mining (Part 2)—Numerical Modelling of the "Room and Pillar" Experiment</i> R.J. Durrheim, D. Labrie	
	301
<i>The Phenomenon of Anomalous Rock Embrittlement</i>	
B.G. Tarasov, A.V. Dyskin	311
<i>Mining-Induced Seismicity Associated with Self-Similar Propagation of Sliding Zones</i>	
A.V. Dyskin	319
<i>Modelling Damage Creation in Stressed Brittle Rocks by Means of Acoustic Emission</i>	
X.L. Lei, T. Satoh, O. Nishizawa, K. Kusunose, M.V.M.S. Rao	327
9. Data Analysis (1)	335
<i>Seismicity in a Scattered Mining Environment—A Rock Engineering Interpretation</i>	
M.J. Dunn	337
<i>A Method to Examine the Time–Space Relationship between Seismic Events</i>	
F.R.P. Basson, D.J.R.M. Ras	347
<i>Monitoring Mine Seismicity in Canada</i>	
J. Alexander, C-I. Trifu	353
<i>Mine Seismology for Rock Engineers—An Outline of Required Competencies</i>	
F. Essrich	359

10. Case Studies (2)	365
<i>Ten Years of Seismic Monitoring in Mines of the Verkhnekamskoye Potash Deposit</i>	
A.A. Malovichko, R.H. Sabirov, B.Sh. Akhmetov	367
<i>Study of "Low-Frequency" Seismic Events Sources in the Mines of the Verkhnekamskoye Potash Deposit</i>	
D.A. Malovichko	373
<i>Measurements of Acoustic Emission During Backfilling of Large Excavations</i>	
T. Spies, J. Hesser, J. Eisenblätter, G. Eilers	379
<i>High-Resolution Strain Monitoring During M>2 Events in a South African Deep Gold Mine in Close Proximity to Hypocentres</i>	
H. Ogasawara, J. Takeuchi, N. Shimoda, H. Ishii, S. Nakao, G. van Aswegen, A.J. Mendecki, A. Cichowicz, R. Ebrahim-Trollope, H. Kawakata, Y. Iio, T. Ohkura, M. Ando	385
<i>Multidisciplinary Monitoring of the Entire Life Span of an Earthquake in South African Gold Mines</i>	
H. Ogasawara, J. Takeuchi, N. Shimoda, M. Nakatani, A. Kato, Y. Iio, H. Kawakata, T. Yamada, T. Yamauchi, H. Ishii, T. Satoh, K. Kusunose, K. Otsuki, S. Kita, S. Nakao, A.K. Ward, R.B. McGill, S.K. Murphy, A.J. Mendecki, G. van Aswegen	393
11. Mine Design	399
<i>Seismicity Management Using Tight Slot Blasting for Stress Control at Mt Charlotte Mine</i>	
P.A. Mikula, G. Sharrock, M. Lee, E. Kinnersly	401
<i>Forecasting Performance and Achieving Performance Indicators in High Stress and Seismically Active Mining Environments</i>	
D.A. Beck, P. Duplancic	409
<i>Strategies to Manage Seismicity in a Deep VCR Environment on Mponeng</i>	
R.B. McGill	419
<i>Seismic Activity as a Result of Mining the Tabular and Massive Orebodies of South Deep Gold Mine</i>	
W.C. Jougin, S.Z. Pethö	425
12. Seismic Hazard and Risk (3)	435
<i>Routine Seismic Hazard Assessment in Some South African Mines</i>	
G. van Aswegen	437
<i>Application of Seismic Hazard Quantification for the Harmony Gold Mines in South Africa</i>	
Y. Jooste, R. Ebrahim-Trollope	445
<i>An Evaluation of the Seismic Hazard Prior to the Extraction of a Shaft Pillar at Kloof Gold Mine</i>	
G.D. Mungur	453
<i>Seismic Hazard Assessment in Mines Using a Marked Spatio-Temporal Point Process Model</i>	
C-I. Trifu, V. Shumila	461
<i>Investigation into the Zones of Increased Seismic Activity in Order to Estimate and Control the Risk of Mining in Iron-Ore Deposits of Siberia</i>	
A.A. Eremenko, V.A. Eremenko, E.V. Potapov, G.V. Gol'tsov, V.N. Filippov	469
13. Seismicity in Soft Rock Mines: Coal and Potash (2)	477
<i>Location of Mining Induced Seismicity in Zones of High P-Wave Velocity and in Zones of High P-Wave Velocity Gradient in Polish Mines</i>	
A. Lurka	479
<i>Borehole Deformation Preceding Induced Seismic Events—Examples from Coal Mines in Upper Silesian Coal Basin in Poland</i>	
S. Lasek, A. Matwiejszyn, M. Ptak	485
<i>Systems of Rock Blasting as a Rockburst Measure in the Czech Part of Upper Silesian Coal Basin</i>	
P. Dvorsky, P. Konicek	493
<i>Numerical Simulation of Instantaneous Outbursts in Underground Coal Mining</i>	
T. Xu, C.A. Tang, W.C. Zhu, T.H. Yang, J. Liu	497
<i>Hard Coal Mining Application of Seismic Transmission Tomography as the Way to Locate Mine Tremor Hazard Zones</i>	
K. Stec, R. Siata	503

14. Rockburst Damage and Support.....	509
<i>Ground Support Optimisation at Long Shaft</i>	
R.J. Butcher, R. Ball, B. Hartmann, J. Currie, G. McLeay.....	511
<i>Identifying the Factors that Control Rockburst Damage to Underground Excavations</i>	
J. Albrecht, Y. Potvin.....	519
<i>Static and Dynamic Load-Displacement Characteristics of a Yielding Cable Anchor—Determined in a Novel Testing Device</i>	
W.D. Ortlepp, L. Human, P.N. Erasmus, S. Dawe.....	529
<i>Rockburst Fractures—A Unique Example of Fracture Localisation and Propagation</i>	
R. Kersten.....	535
15. Source Models and Mechanisms / Mine Seismology (3).....	539
<i>Ground Motion and Scaling Laws of Mine-Induced Seismicity</i>	
S. Talebi	541
<i>Automatic Processing and Relocation Methods</i>	
A. Cichowicz.....	547
<i>Non-Parametric Characterisation of Mining Induced Seismic Sources</i>	
B. Orlecka-Sikora, S. Lasocki	555
<i>Adaptation of Tectonic Earthquakes Precursors for the Prediction of the Mining-Induced Seismicity During Mining Operations</i>	
A.A. Kozyrev, V.I. Panin, V.A. Maltsev, I.V. Fedotova, V.S. Svinin	561
<i>Dynamical Manifestations of Rock Pressure and Mining-Induced Seismicity at Khibiny Apatite Mines in the Kola Peninsula</i>	
A.A. Kozyrev, V.A. Maltsev, V.I. Panin, V.V. Rybin, V.S. Svinin	567
<i>Mining-Induced Earthquakes in the Open Pits of the Kola Peninsula</i>	
A.A. Kozyrev, V.A. Maltsev, E.V. Kasparian, V.V. Rybin, S.P. Reshetnyak	575
16. Instrumentation and Modelling.....	579
<i>Microseismic Monitoring of Open Pit Slopes</i>	
R.A. Lynch, R. Wuite, B.S. Smith, A. Cichowicz	581
<i>Investigation of Electromagnetic Emissions in a Deep Underground Mine</i>	
D.F. Scott, T.J. Williams, S.J. Knoll	593
<i>Modelling of Effects of Rockbursts on Steel Arch Roadway Support Underground</i>	
P. Horyl, R. Šnupárek	601
<i>Analysing and Modelling Rockburst Induced Ground Motion for Civil Engineering Purposes</i>	
Z. Zembaty	607
<i>Implementation of a Multi-Channel Microseismic Monitoring System at Fankou Lead-Zinc Mine, China</i>	
S. Li, W. Zheng, C-I. Trifu, I. Leslie	613
17. Case Studies (3).....	617
<i>Characterising Roof Fall Signatures from Underground Mines</i>	
A.T. Iannacchione, L.M. Burke, M.C. Chapman	619
<i>Study of Temporal Changes of P-Wave Velocity in Polish Copper Mines in High Seismic Activity Zones</i>	
J. Dubinski, G. Mutke	631
<i>Mining-Associated Seismicity in Kolar Gold Mines—Some Case Studies Using Multifractals</i>	
S. Karekal, M.V.M.S Rao, S. Chinnappa	635
<i>Shaft Tower Behaviour in Typical Seismic Load Conditions Associated with Copper Ore Exploitation in the Foresudetic Monocline</i>	
K. Jaśkiewicz, W. Pytel	641
Authors Index.....	645
