Challenges in Deep and High Stress Mining

Challenges in Deep and High Stress Mining features a collection of the most relevant papers presented at a series of biennial International Seminars on Deep and High Stress Mining held in Perth in November 2002, Johannesburg in February 2004 and Quebec City in October 2006. One hundred and twenty technical articles were written and presented at the three seminars producing the most complete and up-to-date compilation of literature on this highly topical subject.

This is a 670 page hard-bound colour publication including 75 papers elected from the above international seminars and updated by the authors for this publication.
